## FLIGHTSAFETY'S LONDON/FARNBOROUGH TRAINING CENTER RECEIVES JAA LEVEL D QUALIFICATION FOR THREE NEW SIMULATORS FROM THE CAA

LaGuardia Airport, New York (May 8, 2009) –FlightSafety International announces that it has received JAA Level D qualification from the Civil Aviation Authority in the United Kingdom for three new simulators.

The Hawker 750, Citation Sovereign and Gulfstream G550 aircraft simulators are located at the company's London/Farnborough Training Center. The simulators were all qualified within an eight week period.

“The JAA Level D qualification of these new simulators demonstrates the high quality and fidelity of FlightSafety's training equipment and our commitment to serve and support our Customers in Europe and the surrounding region,” said Bruce Whitman, President & CEO, FlightSafety International.

The simulators are equipped with the company's latest advances in technology. FlightSafety's electric motion and control loading technology equipped devices offer the highest level of aircraft fidelity, enhanced performance, increased availability and environmental advantages compared to previous generation simulators. The company's VITAL visual systems provide highly detailed, texture enhanced scenes and excels in its realistic presentation of both routine and critical weather conditions. The new simulators also feature SimIO data control and SimPWR power distribution systems designed to enhance simulator performance, increase flexibility and improve efficiency.

The London Farnborough Center offers training programs for pilots, maintenance technicians and other aviation professionals using simulators built for business aircraft manufactured by Cessna, Hawker Beechcraft, Gulfstream and Sikorsky. They include the Cessna Citation Bravo, CJ2, Excel, Mustang and Sovereign, the Hawker 400XP, 750, 800XP, 850XP and King Air 200, the Gulfstream G500 and the Sikorsky S-92.

FlightSafety International is the world's premier professional aviation training company and supplier of flight simulators, visual systems and displays to commercial, government and military organizations. We provide more than a million hours of training each year to pilots, technicians and other aviation professionals. FlightSafety operates the world's largest fleet of advanced full flight simulators at our extensive network of Learning Centers located in the United States, Canada and Europe.
