FLIGHTSAFETY INTERNATIONAL AND GULFSTREAM AEROSPACE EXPAND TRAINING SERVICES AGREEMENT TO INCLUDE THE ALL-NEW GULFSTREAM G650 AND GULFSTREAM G250 AIRCRAFT

LA GUARDIA AIRPORT, New York (October 21, 2009) –FlightSafety International announces that it has expanded its training services agreement with Gulfstream Aerospace to include the new Gulfstream G650 and Gulfstream G250 aircraft.

“We are honored that Gulfstream has selected FlightSafety as its training partner for the Gulfstream G650 and G250 aircraft,” said Bruce Whitman, President & CEO. “We share a commitment to enhance aviation safety and to provide our mutual Customers with the highest quality products, services, and support.”

FlightSafety and Gulfstream are working closely together to develop comprehensive training programs, flight simulators and other advanced training devices. The start of training will coincide with the entry into service of the aircraft. The initial program will include a Level D qualified flight simulator for each aircraft and will be expanded according to Customer requirements.

The simulators will be equipped with FlightSafety’s industry-leading electric motion and control loading technology and new Vital X Visual System. The comprehensive training programs will feature MATRIX, FlightSafety’s integrated training system. Maintenance technicians who will service and support the new aircraft will benefit from the TTT Total Technical Training program developed and delivered jointly by FlightSafety and Gulfstream.

FlightSafety has been the official factory-authorized training organization for Gulfstream Aerospace Corporation for more than four decades. The company offers training for Gulfstream aircraft at Learning Centers in Long Beach, California; Dallas/Fort Worth, Texas; the Greater Philadelphia/Wilmington area; Savannah, Georgia, and at the London Farnborough Airport in the United Kingdom.

FlightSafety International is the world’s premier professional aviation training company and supplier of flight simulators, visual systems and displays to commercial, government and military organizations. We provide more than a million hours of training each year to pilots, technicians and other aviation professionals. FlightSafety operates the world’s largest fleet of advanced full flight simulators at Learning Centers and training locations in the United States, Canada, Europe and Asia.
