## FLIGHTSAFETY INTERNATIONAL PROMOTES DOUG GILL TO DIRECTOR OF ENGINEERING, VISUAL SYSTEMS

**LA GUARDIA AIRPORT, New York (July 10, 2012)** –FlightSafety International is pleased to announce that Doug Gill has been promoted to Director of Engineering for the company's visual simulation facility in St. Louis, Missouri.

“Doug has made numerous contributions to the design and support of FlightSafety's advanced technology visual simulation over the past 14 years,” said Jon Hester, General Manager, Simulation-Visual Systems. “His experience in all aspects of our engineering department, leadership skills and extensive understanding of the needs of our customer makes Doug the right person to take on this key role. Working with our highly experienced and effective team of engineers, Doug will continue to support and reinforce FlightSafety's position as a technology leader in the visual simulation field.”

He joined FlightSafety in 1998 at the company's visual simulation facility in St. Louis, Missouri and has held positions of increasing responsibility within the Engineering Department. Doug most recently served as Manager of Real-Time Software and Display Management Systems.

Doug graduated from Washington University in St. Louis, Missouri with a Master of Science in Computer Science. He also holds a Bachelor of Science in Computer Science from the University of Missouri, in Columbia, Missouri.

FlightSafety is a world leading supplier of aviation training devices, visual systems and displays. The company has designed, manufactured and delivered more than 1,000 visual systems and close to 800 simulators and other advanced training devices. They are used in the training FlightSafety provides at its Learning Centers and by many leading airlines, governments and military agencies.

FlightSafety International is the world's premier professional aviation training company and supplier of flight simulators, visual systems and displays to commercial, government and military organizations. The company provides more than a million hours of training each year to pilots, technicians and other aviation professionals from 154 countries and independent territories. FlightSafety operates the world's largest fleet of advanced full flight simulators at Learning Centers and training locations in the United States, Australia, Brazil, Canada, China, France, Japan, Singapore, South Africa, the Netherlands, and the United Kingdom.
