FLIGHTSAFETY ADDS FOREFLIGHT AND AERONAUTICAL DATA SYSTEMS TO ITS EXTENDED ADVANTAGE PROGRAM

LA GUARDIA AIRPORT, NEW YORK (October 28, 2013) – FlightSafety is pleased to announce the addition of ForeFlight and Aeronautical Data Systems to its Extended Advantage program.

“The Extended Advantage program provides FlightSafety Customers with preferred access, discounts, and other benefits for many of the products and services that are necessary to operate a safe, efficient and high-quality flight operation and to assist with increasing operational requirements they face,” said Chris Weinberg, Chief Information Officer.

ForeFlight provides comprehensive flight planning, in-flight support, and electronic charting plus tools designed to make managing iPad deployments within flight operations simple and efficient. FlightSafety Customers who are new to ForeFlight will receive the benefit of two additional months on their first year of service, as well as other incentives on bulk purchases for flight departments and crews.

“ForeFlight and FlightSafety share a common vision to make every flight safe and efficient through the innovative use of technology,” says Tyson Weihs, ForeFlight co-founder and CEO. “ForeFlight Mobile complements the professional, cutting-edge training pilots receive at FlightSafety, and the Extended Advantage program is a great way for them to get on board and experience the advantages of ForeFlight.”

Aeronautical Data System offers FlightSafety Customers preferred pricing on its Oxygen & Fuel Management bundle which will enable them to save money and improve safety using their O2 Timer™, e-OPS™ Oxygen Planning, and Ergo 360™ Mapping solutions.

“The addition of ForeFlight and Aeronautical Data Systems to the Extended Advantage program continues our focus on providing our Customers with industry leading innovative solutions that enhance both the safety and efficiency of their flight operations,” said Chris Weinberg, Chief Information Officer.

Other Companies participating in the Extended Advantage Program include, ARGUS - PRISM Safety Management System; BoldIQ - automated flight operations management & optimization; PASSUR – Corporate Flight Coordination Solutions; Alertness Solutions - Fatigue Alertness Training; FlightRisk – Risk Assessment and flight planning tool; Absolute Computer Solutions - Electronic Flight Bag (EFB) bundles and support; Onboard Data Systems (OBDS) - Electronic Checklist Customization & Update Service; and ClipTraining - Microsoft Windows & Office online training. FlightSafety Customers can take advantage of the program by logging on to the myFlightSafety.com website.

FlightSafety International is the world’s premier professional aviation training company and supplier of flight simulators, visual systems and displays to commercial, government and military organizations. The company provides more than a million hours of training each year to pilots, technicians and other aviation professionals from 167 countries and independent territories. FlightSafety operates the world’s largest fleet of advanced full flight simulators at Learning Centers and training locations in the United States, Australia, Brazil, Canada, China, France, Japan, South Africa, the Netherlands, and the United Kingdom.
